Arkansas' Unemployment Rate Rises to 4.7 Percent

Little Rock, Arkansas – Labor Force data, produced by the U.S. Department of Labor, Bureau of Labor Statistics and released today by the Department of Workforce Services (DWS), shows Arkansas' seasonally adjusted unemployment rate rose four-tenths of a percentage point from a revised rate of 4.3 percent in January to 4.7 percent in February 2006. The United States' jobless rate, at 4.8 percent, was one-tenth of a percentage point above last month's rate of 4.7 percent.

In February 2006, Arkansas' total employment declined 5,600 to 1,327,100. The number of unemployed Arkansans increased 4,700 to 65,100. Manufacturing layoffs and further cutbacks in retail jobs were partly to blame.

DWS Communications Director Kimberly Friedman said, "Despite the upturn in unemployment between January and February, the jobless rate in Arkansas is down three-tenths of a percentage point from one year ago."

Nonfarm Payroll Jobs

Arkansas' nonfarm payroll employment (not seasonally adjusted) rose 6,900 between January and February to 1,176,400. Six of the 11 major sectors experienced increases, two declined and three showed no change. The largest addition this month occurred in **government** (+3,700) where student workers and nonteaching personnel returned from semester break.

Over the year, nonfarm payroll jobs in Arkansas advanced 14,300. Seven major sectors had gains greater than 1,000, which were partially offset by the loss of 5,400 in **manufacturing**.

Monthly Employment Activity January 2006 to February 2006

Government added 3,700 jobs over the month due to student workers and nonteaching personnel returning from semester break.

Employment in the **leisure and hospitality** sector increased 2,100 to total 91,600. Accommodations and food services (+1,400) experienced robust hiring in part due to the opening of the racing season at Oaklawn Park.

Professional and business services employment rose 1,000 to 113,200 in February. The majority of the increase was attributed to administrative and support services.

Educational and health services gained 900 jobs as the result of advances in health care and social assistance and the return of student workers to private educational facilities following semester break.

Construction and **other services** added 300 and 200 jobs, respectively.

Employment in **trade**, **transportation**, **and utilities** decreased 500 to 243,200. The largest contraction was traced to seasonal declines in retail trade (-1,100), with reductions noted at general merchandise and department stores. The number of jobs in transportation-warehousing-utilities (+400) rebounded along with wholesale trade (+200).

Manufacturing employment fell 800 in February to 195,700. Nondurable goods dropped 600 while durable goods lost 200. The largest decreases occurred in food and furniture-related products.

Job totals in the **natural resources-mining**, **information**, and **financial activities** sectors were unchanged over the month.

Yearly Employment Activity February 2005 to February 2006

Employment in the **government** sector rose 4,600 over the year. The largest gain was 3,100 in local government.

Professional and business services expanded over the year, adding 4,400 jobs. The most notable increase (+3,000) was in the administrative and support services category.

The health care and social assistance segment was responsible for the gain of 3,200 in the **educational and health services** sector.

Employment in **trade, transportation, and utilities** rose 2,600 over the year. The greatest concentration of new hires was in general merchandise stores (+1,200) and truck transportation (+1,000).

Leisure and hospitality added 1,500 jobs. Hiring in accommodations and food services accounted for 73 percent of the increase.

A gain of 1,400 was posted in **construction**. The largest contribution came from specialty trade contractors (+1,200).

The number of jobs in the **financial activities** sector grew by 1,100. Finance and insurance companies were responsible for the growth.

The number of jobs in **other services** rose 700 over the year.

Improved technology in the mining industry translated to an addition of 400 jobs in the **natural resources and mining** sector.

The information industry declined 200.

There were 5,400 jobs lost in **manufacturing**. Employment in the nondurable goods sector decreased 3,500. The largest reduction occurred in the food manufacturing industry (-1,700). Jobs in durable goods dropped 1,900.
